## DESCRIPTION OF THE BOOK RENDEZVOUS WITH RAMA

At first, only a few things are known about the celestial object that astronomers dub Rama. It is huge, weighing more than ten trillion tons. And it is hurtling through the solar system at inconceivable speed. Then a space probe confirms the unthinkable: Rama is no natural object. It is, incredibly, an interstellar spacecraft. Space explorers and planet-bound scientists alike prepare for mankind's first encounter with alien intelligence. It will kindle their wildest dreams...and fan their darkest fears. For no one knows who the Ramans are or why they have come. And now the moment of rendezvous awaits - just behind a Raman airlock door. Includes an exclusive introduction by Hugo Award-winning author Robert J. Sawyer

## RENDEZVOUS WITH RAMA - WIKIPEDIA

Rendezvous with Rama is a science fiction novel by British writer Arthur C. Clarke first published in 1973. Set in the 2130s, the story involves a 50-kilometre (31 mi) cylindrical alien starship that enters the Solar System. An all-time science fiction classic, Rendezvous with Rama is also one of Clarke's best novels--it won the Campbell, Hugo, Jupiter, and Nebula Awards. A huge, mysterious, cylindrical object appears in space, swooping in toward the sun. Arthur C. Clarke's novel won both the Hugo and Nebula awards upon its release, and coming hard on the heels of "2001: A Space Odyssey", "Rendezvous With Rama" is widely regarded as one of Clarke's best works, and is often cited as a quintessential example of "hard" science fiction. Rendezvous with Rama is a science fiction novel by British writer Arthur C. Clarke first published in 1973. Set in the 2130s, the story involves a 50-kilometre (31 mi) cylindrical alien starship that enters the Solar System. Rendezvous With Rama is by far one of the greatest Si-Fi Books I've ever read. I've never have read a book written by Author C. Clarke before, but after reading this book I definitely know that I'm going to read several more of his works.
